

1	Headlamp unit, left								
a	High beam								
b	Low beam								
c	Parking lamp/standing lamp								
d	Turn signal lamp								
e	Fog lamp								
2	Glove compartment lamp								
3	Wiper motor, headlamp*								
4	Washer pump, headlamps*								
5	Relay, headlamp cleaning system*								
6	Contact sensor, brake pads, front, left								
7	Instrument cluster								
a	Turn signal indicator lamp, left								
b	Coolant temperature gauge								
c	Fuel gauge								
d	Fuel reserve warning lamp								
e	High beam indicator lamp								
f	Brake fluid and parking brake indicator lamp								
g	Instrument lamps								
h	Rheostat, instrument lamps								
i	Warning buzzer								
j	Charge indicator lamp								
k	Turn signal indicator lamp, right								
l	Brake pad wear indicator lamp								
m	Electronic revolution counter w/clock								
8	Contact sensor, brake pads, front, right								
9	Headlamp unit, right								
a	High beam								
b	Low beam								
c	Parking lamp/standing lamp								
d	Turn signal lamp								
e	Fog lamp								
10	Thermo-time switch								
11	Starter valve								
12	Temperature sensor, coolant								
13	Relay, fuel pump/warm-up control								
14	Safety switch, baffle plate								
15	Parking brake indicator lamp switch								
16	Stop lamp switch								
17	Washer pump								
18	Dual-tone horn (fanfares)								
19	Glove compartment lamp switch								
20	Warning flasher switch/timer								
21	Horn contact								
22	Radio*								
23	Fuse box								
24	Relay, air conditioner*								
25	Pressure switch, refrigerant compressor.* On 2.6 bar, Of 2.0 bar								
26	Brake fluid indicator lamp switch								
27	Switch-over valve, idle stabilization								
28	Rear dome lamp**								
29	Sensor, Tempomat*								
30	Actuator, Tempomat*								
31	Combination switch								
a	Stop lamp switch								
b	Headlamp flasher switch								
c	Dimmer switch								
d	Washer switch								
e	Switch wiping speed								
f	Intermittent wiping								
g	Slow wiping								
h	Fast wiping								
i	Tempomat*								
32	Switch, Tempomat*								
A	Off								
V	Decelerate/set								
SP	Resume								
B	Accelerate/set								
33	Wiper motor								
34	Cigar lighter with ashtray illumination								
35	Sliding roof motor**								
36	Switch, electrically operated sliding roof**								
37	Rear dome lamp switch**								
38	Electromagnetic clutch, refrigerant compressor*								
39	Warning buzzer contact								
40	Solenoid valve, automatic transmission*								
41	Starter lockout and back-up lamp switch*								
42	Lighting switch								
43	Illumination, shift plate*								
44	Ignition starter switch								
45	Amplifier, Tempomat*								
46	Intermittent wiping timer								
47	Distributor, breakerless (Model 280 SL/SLC 6-cyl.)								
48	Spark plugs								
49	Door contact switch, right								
50	Pre-resistance 0.4 Ω								
51	Entrance lamp, right								
52	Kick-down switch								
53	Heater coil, warm-up control								
54	Time-lag relay, heated rear window								
55	Switch, heated rear window								
56	Illumination, heater controls								
a	Control lever, right								
b	Control lever, left								
c	Defrost sign								
57	Blower switch with lamp								
58	Door contact switch, left								
59	Transistorized ignition switching unit								
60	Pre-resistance 0.6 Ω								
61	Ignition coil								
62	Switch, window, rear, left**								
63	Window lift motor, rear, left**								
64	Entrance lamp, left								
65	Switch cluster, window lifts*								
a	Switch, window, rear, left**								
b	Safety switch**								
c	Switch, window, front, left								
d	Switch, window, front, right**								
e	Switch, window, rear, right**								
66	Window lift motor, front, left*								
67	Front dome lamp w/switch**								
68	Pre-resistance, blower motor								
69	Blower motor								
70	Temperature control w/lighting, air conditioner*								
71	Relay I, window lifts*								
72	Relay II, window lifts*								
73	Fuel pump								
74	Fuel gauge sending unit								
75	Plug connection, tail lamp cable harness								
76	Trunk lamp								
77	Battery								
78	Automatic antenna*								
79	Starter								
80	Alternator w/electronic regulator								
81	TDC transmitter								
82	Window lift motor, front, right*								
83	Plug socket (diagnosis)								
84	Window lift motor, rear, right**								
85	Switch, window, rear, right**								
86	Tail lamp unit, left								
a	Turn signal lamp								
b	Tail/standing lamp								
c	Back-up lamp								
d	Stop lamp								
e	Rear fog lamp								
87	Heated rear window								
88	License plate lamps								
89	Tail lamp unit, right								
a	Turn signal lamp								
b	Tail/standing lamp								
c	Back-up lamp								
d	Stop lamp								

* Special equipment
** On coupé only

Wire Color Code

bl = blue	nf = neutral
br = brown	rs = pink
el = ivory	rt = red
ge = yellow	sw = black
gn = green	wl = purple
gr = grey	ws = white

Example:
Wire designation 1.5 gr/rt
Basic color gr = grey
Identification color rt = red
Cross section of wire 1.5 = 1.5 mm²
